YOU

A - Width = cm

B - Width = cm

C - Height = cm (optional)

D - Circumference = cm

H - Backrest height Standard : 42 cm

Low: 35cm

Special shape

- "I accept that Bardum AS and Tessier can store my name and measurements for producing sports equipment. My personal data will not be used for any other interests." **Signature:**

A standard Scarver includes:

- Tessier Scarver frame - Frame materials: CNC aluminium and steel – Colour: Black and aluminium - Adjustability of the centre of gravity: 70mm (Uniski) - Adjustable sitting angle between 30° and 40° every 2° - System for easy use of chairlifts – Adjustability of the frame's kinematic, 3 positions. Adjustability of the edging system, 4 positions (Dualski).
- Öhlins shock absorber - 2 models
- White Gelcoat foam padded seat with adjustable back rest, large and comfortable strap around the torso - Straps with tightening buckles around thighs and hips, cushion made of memory shape foam
- Composite foot rest and fabric leg cover

FRAME

Scarver frame: Uniski base low model Uniski base high model Dualski base

Lower suspension arm: Straight (For Uniski only) Rounded (For both Uniski & Dualski)

Seating angle: 30° 32° 34° 36° 38° 40°

(Can easily be modified after delivery)

Shock absorber:

- Öhlins PRC (for intermediate to racing skiers, 1 compression and 1 rebound adjustments)
 Öhlins TTX (for high level racing skiers, 2 compression and 1 rebound adjustments)

(The precise weight of the skier is needed)

SEATS

- White gelcoat seat** (standard)
 Kevlar carbon seat (option)
 Carbon seat (option)

Seat size:

- 1 (33-34cm)
 2 (35-36cm)
 3 (37-38cm)
 4 (39-40cm)
 5 (41-42cm)
 6 (44-45cm)
- Standard backrest (h : 42cm)
 Wide backrest (h : 42cm)
 Low backrest (h : 35cm)
- "RMC" Backrest (cut on the sides, for good skiers with low level of injury)
- Standard chest strap (Velcro strap)
 Chest strap in 3 parts (recommend for "RMC" backrest)
- Backrest adjustments buckle
 Standard
 Ratchet
- Special adaptation (special height, special cut, special foam...):
- I already have my seat size:
 and I need the Velcro strap to fix the Racing cover over it.

Our seats are equipped with breaks on the sides (Compulsory for competition) I don't want them

LEG PROTECTIONS

Tick		Size	Inside length (A)	Inside width (B)
White	Black			
		M	290 mm	220 mm
		L	330 mm	235 mm
		XL	340 mm	245 mm
		Racing Gel-Coat with hard top	290 mm	180 mm
		Racing Kevlar-Carbon with hard top		
		Racing Carbon with hard top		

- Fabric leg cover (to use with all foot fairing)
- Protection for racing foot fairing (slalom use)

"Racing" foot fairing have to be used with neoprene diving boots. "Racing" covers are made of 2 parts to be adjusted to the leg's length but it is possible that depending on the size and the morphology, it doesn't fit to everyone. The upper part of the cover exists in 2 widths (for size 1 to 2, or size 3 to 5, unavailable with seat size 6)

ACCESSORIES
Outriggers:

- TRACER:
 with blocks (chairlift help)
 without blocks
